Welcome to your **Leicestershire Music Practice Diary**

We hope you're enjoying learning your instrument with us and that this Practice Diary helps you on your musical journey!

Here are some **Tips & Tricks** to help you practice -

1. Set aside some time each day to ensure that you practice regularly
2. Find a quiet place to practice so you don't have any distractions
3. Don't always practice from the beginning of a piece, try working on the detail first.
4. Work on the bits you can't do, not just the bits you can.
5. Each time you practice make sure you refer to your notebook and follow your teachers comments and suggestions.
6. Play for family and friends and also with other musicians. It is fun and will help you become a better musician.
7. Remember to sit or stand in the right position and hold your instrument correctly.
8. Make sure you have the correct equipment you need for lessons and practice, such as a pencil, your practice notebook, your music and your instrument.
9. Look after your instrument. After practicing, clean it and put it away safely.
10. Before leaving your lesson, make sure you check with your teacher that you understand what needs to be practiced for your next lesson.
