

## Vision

Leicestershire Music is an inspirational music education hub that empowers all children and young people to realise their musical potential and pursue their individual progression pathway.

Leicestershire Music will advocate for music education at every level to improve outcomes for children and young people across the City and County.

## Quality Principles

In order to deliver on this vision, Leicestershire Music (LM) has recently developed some Quality Principles. These were created in collaboration with Leicestershire Music staff, Governance and Hub partners. They provide a standard against which LM will measure all its activity in order for it to be deemed high quality across all areas of the organisation. This includes customer service, communications, music delivery, workforce development, delivery of training, financial planning and controls, policies and procedures.

## We are:

- Inclusive
- Collaborative
- Supportive
- Innovative
- Sustainable

These principles are upheld, supported and measured by a number of impact and evaluation tools, policies, plans, strategies and procedures:
